

CURRICULUM VITEA

Elham Abdoli, M.D.

Office Address:

Department of Infectious Diseases, Hamedan University of Medical Sciences, Hamedan,
Iran

Personal Data:

Assistant Professor of Infectious Diseases, Hamedan University of Medical Sciences

Date of Birth: 1975

Mobile: (+98)9183516400

E-mail: eabdoli8387@gmail.com

Academic Degrees:

M.D., General Physician, 1994-2001, Hamedan University of Medical Sciences, Hamedan,
Iran.

M.D., Infectious Disease specialty, 2011-2015, Hamedan University of Medical Sciences,
Hamedan, Iran.

Honors:

Top assistant Professor of Infectious Diseases, Hamadan University of Medical Sciences
2014

Top Citizen of Hamadan Health Defender Section 2020

Top of the doctors in Hamadan 2020

Scientific Association Membership:

Member of Infectious Disease Research Center, Hamedan University of Medical Sciences

Referee/ Reviewer Consultancy:

Reviewer of Avicenna Journal of Clinical Sciences

Reviewer of Avicenna Journal of Clinical Microbiology and Infection

Publications

Journal Papers:

1. Acute Disseminated Encephalomyelitis Following Pneumococcal Meningitis Infection. Mohamad Mahdi Majzoobi, Mojgan Mamani, Masoud Ghiasian, Elham Abdoli. Avicenna J Clin Microb Infec. 2014 October; 0(3): e41604.
2. A Case Report of Pulmonary Thromboembolism with Sputum Smear Positive Tuberculosis. F. Keramat, E. Abdoli, M. Shirvani. Sci J Hamadan Univ Med Sci. 2014; 21(3): 245-250
3. Comparison of radiologic findings among smear-positive and smear-negative tuberculosis patients. Fariba Keramat, Shahram Rastegari, Jalal Pouraloja, Elham Abdoli. Scientific Journal of Hamadan University of Medical Sciences and Health Services. Year 2016, Volume 23, Issue 2, pp. 141-148 (Persian)
4. Association of serum procalcitonin and C-reactive protein levels with CURB-65 criteria among patients with community-acquired pneumonia. Keramat F, Ghasemi Basir HR, Abdoli E, Shafiei Aghdam A, Poorolajal J. Int J Gen Med. 2018 Jun 13;11:217-223. doi: 10.2147/IJGM.S165190. eCollection 2018
5. A pilot study on the melatonin treatment in patients with early septic shock: results of a single center randomized controlled trial. Taher A, et al. Among authors: abdoli e. Ir J Med Sci. 2022. PMID: 34468959

6. Efficacy and safety of a protein-based SARS-CoV-2 vaccine: a randomized clinical trial. E Mostafavi, S Eybpoosh, M Karamouzian, M Khalili, S Haji-Maghsoudi, ... JAMA network open. 2023; 6 (5): e2310302-e2310302
7. Ocular Manifestations in HIV-Positive Patients and Their Association with CD4 Count: A Cross-Sectional Study. AF Torkaman, F Eslami, M Alizadeh, T Rezaei, E Abdoli, E Khanlarzadeh. Archives of Clinical Infectious Diseases. 2025; 20 (3), 1-8
8. Molecular Investigation and Confirmation of Clinical Isolates of Escherichia coli Urinary Infections and Evaluation of Frequency of qnrA Quinolone Resistance Gene by PCR Method. M Adabi, E Abdoli, MV Shams, F Batmani. Avicenna Journal of Clinical Medicine. 2025; 31 (4), 206-212 (Persian)

Thesis supervisor:

1. Genetical investigation and confirmation of clinical isolate of Escherichia coli of hospitalized patients in Sina hospital and Evaluation of frequency of qnrA quinolon resistance Genes by PCR method. 2022
2. Study of antibiotic resistance and genetic Identification of clinical isolate of Escherichia coli from patients with urinary tract infection in Shahid Beheshti Hospital in and Evaluation of frequency of metalobetalactamas antibiotic resistance Gene by PCR method.2022

Thesis advisor:

- 1- Evaluation of salivary secretory leukocyte protease inhibitor concentration in HIV-infected patients and its relation with CD4 count and oral candidiasis. 2017
- 2- Evaluating the effect of melatonin on clinical outcomes of patients with septic shock: a pilot clinical trial.
- 3- Evaluation of the frequency of ocular manifestations and its relation to CD4 + cells count in HIV / AIDS patients in Hamadan, Iran during 2018- 2019.
- 4- Evaluating of frequency and antibiotic resistance patterns of isolated bacteria from positive tracheal culture of hospitalized patients in Besat Hospital, Hamadan, 2019-2020
- 5- Analysis of Complete Blood Count Findings in patients who was admitted with novel corona virus pneumonia in Besat hospital-Hamedan and comparing the results in 2 age groups under 18 and over 18 years (2020-2021)

- 6- Evaluation the frequency of ear, nose and throat symptoms in hospitalized patients due to COVID19 in spring 1400 at besat hospital in Hamedan.2021
- 7- Investigating the frequency of tracheal bacterial infections and the level of antibiotic resistance in patients admitted to Sina Hospital in Hamedan from 2021 to 2023
- 8- Investigation of Prevalence and antibiotic resistance profile of bacteria causing ventilator-associated pneumonia (VAP) in patients hospitalized in Hamedan teaching hospitals in 2023.
